FROM THE HEADMISTRESS’S DESK

“Education of the mind without the education of the heart is no education at all” —Aristotle

Before the concept of schools and study centers was introduced, people — the young and old alike — would travel far and wide in pursuit of wisdom and to master skills. The emphasis was not merely on knowledge but also the use of it. With the passing of centuries as humans made progress in fields previously not even imagined, the concept of education also evolved. Today we confuse a surplus of information with knowledge, and the following of trends with education.

The purpose of education is considered to develop skills needed to pursue a profitable career and excel in society or to transfer knowledge so as to make students functioning members of the society. As Martin Luther King said, ‘The function of education is to teach one to think intensively and to think critically.’ But education which stops with efficiency may prove to be the greatest menace to society. The most dangerous criminal may be the man gifted with reason but no morals. We must remember that intelligence is not enough, intelligence plus character — that is the goal of true education.

Here at Froebel’s, moral, values, ethic and character building is given just as much importance as to academics. Essentially the idea is to educate the whole child and not just fill in the academic blanks. Therefore this year, morning meetings were introduced to teach children how to handle social pressures by first identifying the issues and then searching for and implementing solutions on their own. We work towards making our students strong individuals who stick together to form a strong society, rich with ethical and moral values.

As parents and educators we must hold hands and work together to nurture the mind so while we are busy preparing the Abdul Salams and Abdul Qadeers of the future we also motivate the Jinnahs, Iqabals and Edhies of the coming generation.

In essence I feel the most apt words are, ‘The heart of education is the education of the heart’ (Anonymous).

The love for food was celebrated by organising a 'Food Festival'. Not only was there mouthwatering street food, there were lots of games and everyone danced to the carnival music.

Names are an incredibly important part of welcoming a new child into the world. Early Years were tickled pink at the chance to change their names on ‘Name Yourself Day’. They made different shaped name tags and named themselves after a favourite character or a friend.

September 9th was celebrated as ‘Teddy Bear Day’ in Early Years. Teddy bears are very popular toys for children and hold a special place in many adults’ hearts too. Students brought their teddies to show their friends while sharing stories related to their teddies over a picnic. This not only enhanced their confidence but also developed a sense of sharing.
Grandparents are a delightful blend of laughter, caring deeds, wonderful stories and love. To celebrate this special bond between young ones and their grandparents, ‘Grandparents Day’ was celebrated at the start of the academic year. Students of Early Years made decorative paper fans, life-like dolls and photo frames. They proudly introduced their teachers and friends to their grandparents.
The love for food was celebrated by organising a ‘Food Festival’. Not only was there mouthwatering street food, there were lots of games and everyone danced to the carnival music.

To make children aware of the recycling process, an exciting activity from IPC theme ‘Brainwave’ was conducted by Preparatory in which they used different recycling materials to make tree trunk, grass and clouds.

Gatherers at the time of stone-age used to communicate with the help of the cave paintings. Year 2 designed and painted their own cave paintings using modern day arts & crafts as part of their IPC theme ‘Scavengers and Settlers’.

In honour of the late great artist, Pablo Picasso, Early Years celebrated his birthday. A brief background of Picasso was shared with the students followed by an art session. They created a beautiful piece of artwork by using their hands directly ‘dipping them in paint. Messy, fun and creative!
Wright Brothers’ Day

To celebrate the evolution in the history of flight, every December 17th the Wright brothers are discussed. Students of Preparatory watched videos of their first flight and investigated their story through pictures. They also made and decorated paper planes and sent them on test flights of their own.

My Infectious Smile!

A smile is language which everyone understands. ‘World Smile Day’ is celebrated on the first Friday of every October. Students of Early Years celebrated it by making smiley faces on headgears and pop sticks. Activities with happy faces brought smiles all around. They were very excited to take their artwork home.
A WORLD DAY FOR US!

November 20th is an important date as it is ‘Universal Children’s Day’ each year. The school asked parents to send in packages containing their child’s favourite treasures. Students of Early Years truly felt special when they received this special post and proudly showed it to their classmates. They also shared related stories with them and felt very emotional while talking about their old pictures, toys and passport.
Solving a puzzle is good brain exercise; it makes both sides of the brain work together. In January ‘Puzzle Day’ was celebrated by Early Years. By solving puzzles, students developed cognitive skills, hand and eye coordination, problem solving and fine motor skills.
The students of Playgroup enjoyed their IEYC theme ‘The Brilliant Bugs’ thoroughly. At this age children are curious about the natural world and they actually enjoyed handling bugs while exploring sand, soil in the outdoors. They celebrated the entry point by hunting and observing different mini beasts and discussing their features. Other activities during this theme were creating party menus, food preparation, sorting mini beasts and learning about a very hungry caterpillar!
Dinosaur Detectives

These amazing yet ferocious creatures, although now extinct, are still fascinating to children. Most young children, even at this early age learn their names. In this IEYC theme to fully understand the environment where dinosaurs thrived, Kindergartners made a home for them using raw and recyclable materials. The children brought materials such as rocks, leaves, sand and a box to make their own dinosaur habitat.
Kindergarten students had a wonderful time discussing different types of hairstyles, including their colour, length and texture. They ended their class with a demonstration of their favourite styles.
To kick start the IPC theme ‘Brainwave’, Professor Spark visited Preparatory students and explained how important learning is. He said if we can ‘learn to learn’ in the best possible way, then we can all become super brain boxes like him! During this theme students did a lot of activities to help them understand how the brain makes connections in better ways like making 3D glasses, solving puzzles, planning and conducting a relay race and healthy exercises.
What is it made of?

Preparatory students celebrated their second IPC theme ‘What’s it made of’ by making a sculpture with recycled materials. During this theme they improved their knowledge about different types of materials, their usage, recycling and saving our world. They wrapped up the theme by exhibiting their creations made from disposable items.
Children like to remember and share old events and memories. In this IPC theme for Preparatory, students turned themselves into the history detectives and investigated local, international and school events from the past. They honoured the entry point by celebrating ‘Defence Day’ and ended this theme by visiting the Pakistan Monument and observing Pakistan’s famous historic personalities in the museum.
Under this IPC theme, students learnt about Earth and the different kinds of animals that inhabit it. At the exit point, the learners made models of animals living in different habitats. They exhibited and explained their models which consisted of land and water habitats. This presentation boosted student’s self-confidence and enhanced their knowledge about several animals.
Year 1’s IPC theme of ‘Super Humans’ is about senses, different organs, the wonder that the human body is and how to nourish and take good care of it. A part of the class presented the information they had learnt during this theme and the other half dressed up and performed role play about professionals who facilitate us in keeping our bodies healthy and fit. Dressed as doctors and fitness instructors, students examined their partners with medical instruments like the stethoscope and gave instructions on how to live a fit and healthy life.
Students of Year 1 made 3D models of different games as part of their exit point for the IPC theme ‘Push Me, Pull You’. Through these models they presented the use of opposing forces through different activities.
Students of Year 1 went on a trip to the ‘Bahria Enclave Zoo’ to observe the animals they had studied about. The curiosity excitement and wonder was almost palpable as the students observed the exotic animals eating, lounging, pacing and playing in their artificial habitats. They fed the monkeys and the ostrich and watched the Macaws squawking.
Shake It – IPC Science Task

As part of their IPC theme Shake It, students of Year 2 participated in a butter-making experiment to discover information about reversible and irreversible (chemical) changes. They also discovered the cause and effect of shaking the cream into butter. It was a yummilicious experiment.
Field trips are important to help connect academic learning with hands-on experience. Students of Year 2 saw and enriched their knowledge of the crops, fruits and vegetables they had learned about in their classroom. The visit to the organic farm helped them learn how food is grown and how animals are raised. Students made a vital connection between the social and economic importance of agriculture in their lives. The exit point was followed by a scrumptious and healthy feast.

**Bright Sparks!**

Students of Year 2 used their critical thinking skills to create their own electric circuits to discover the basics of electricity. Under the IPC exit point ‘Bright Sparks’, the project gave an opportunity to learners to see how electricity travels through an AC circuit.
Students of Year 3 participated in a role play activity for the Entry Point of ‘Temples, Tombs and Treasures’. Pretending to be archaeologists, they dug up the ground with spades and shovels, and were thrilled to uncover various artefacts (previously buried by their teacher). The students were overjoyed with their findings.

For the Exit Point of the theme students hosted an exhibition ‘Visual Walk-Through’, of their work on the Ancient Egyptian Civilisation. They presented work created during the learning period, which included 3D models of pyramids, masks, a mummy and even a mural depicting a pharaoh. The exhibition was attended by students of Year 4 and 5, who were also given a briefing on each of the displays.
Knowing Our Roots

Students of Year 3 went on a trip to the museum at Lok Virsa, a cultural heritage museum depicting the living styles of various communities co-existing in Pakistan. Their trip was arranged by the school as the Exit Point for the IPC theme ‘Living Together’ during which they studied different aspects of a community, including learning about the culture and crafts of their own community, both past and present. Thus the cultural museum proved an interesting and informative trip for the young learners.

Saving the World

The Year 3 classroom was transformed a part of their classroom into an exciting rainforest for the entry point of the IPC theme ‘Saving the World’. Students made all the elements according to the theme and even included the living organisms that exist in the rainforest.
Year 3 students truly enjoyed constructing and using weather instruments as a part of IPC Science & Technology Task. In these pictures the students can be seen gauging the wind direction and speed by help of a wind vane and an anemometer. The students also enjoyed making fun games for recording weather activities using software called Scratch. Through this activity they were introduced to various software terms such as input, process, output, blocks, variables and more.
Little Feathery Fellows!

Year 4 immensely enjoyed their trip to the ‘Bird Aviary’ at Lake View Park which is home to hundreds of bird species. Students’ knowledge related to birds improved while they got a chance to look at and interact with the birds as they moved about freely in their safe and close to natural environment. There were many species of parrots, pheasants, doves, swans, ducks, peacocks, cranes and many other birds at the aviary. Students went up to the bird-watching tower to get a better look at the birds’ environment and see more birds up close.
The IPC theme ‘Full Power’ for Year 5 was based on electricity. It included science, technology and international tasks followed by the Exit Point. Students learnt about series and parallel circuits as well as their parts. They showed keen interest in making circuits, booklets on the founders of electricity, posters on safety tips and constructed loop wire games.
Out of Africa

Year 5 students learnt about adaptation of amphibians, comparison of humans with apes and pre-historic food under their IPC theme ‘Out of Africa’. In the Exit Point, students displayed their chart work and projects.

What a Wonderful World

This theme was about the study of the Earth, weather reporting, weathering and erosion, types of soils, types of maps, natural disasters and how organisations help to avert them, deforestation, the 3R principle, phases of the moon, how seasons change, safety tips for hurricanes and earthquakes, latitudes and longitudes as well as the types of clouds. Students showed great interest and eagerness in every task. In the Exit Point they shared the new knowledge gained by explaining the projects they had made on these topics.
This year F-11 campus focused on teaching students the dangers of substance abuse by organising a Red Ribbon Week. Students prepared posters, keys with positive messages and signed a pledge banner for making healthy choices. Teachers and students supported the cause by wearing red ribbons, caps and bands all week. Students were given the opportunity to express their views openly and present their opinions.
Students of Lower Secondary motivated each other to pursue environment friendly practices by devising a plan and presenting it in discussion groups. They implemented the plan by creating a ‘Green Force’. Green Force is not only responsible for keeping the plan on track but also encourages students to practice recycling, switching off lights when not in use and throwing trash in dustbins. These practices inspired students to develop social responsibilities by positively altering their daily routines.
To create awareness about social responsibility, Lower Secondary students helped organise a fund-raising event called ‘Hike for Hope’. The objective behind this year’s event was to collect charity for ‘Ilm School’ which is a mobile school in the slums of Islamabad. Students supported the cause by participating enthusiastically in the hike along the Margalla Hills Trail 5. They motivated each other along the hike and pledged to continue working for such social causes in future as well.
Once Upon a Time!

Our very dramatic students presented their talent through vibrant and exciting plays at this year’s Dramatic Arts Performances. Audience was treated to recitals about the geography of Earth by Playgroup and Kindergarten, an enchanting musical about the Dancing Princesses by Preparatory and modern day adaptations of classic fairytales like Beauty & the Beast, Sleeping Beauty, Rapunzel and Holka Polka by Primary Years. Our daring Lower Secondary students chose to present one-act plays on ‘One Dark Night’ depicting tales of horror, which led the audience on a mysterious journey of a world filled with fear. The scintillating performances not only enthralled the audience but also left the participants with lots of wonderful memories.
Faculty members received flowers and chocolates with a wonderful accolade during the morning assembly. Students showed their appreciation for their respective teachers with flowers, notes and delightful cards. They talked about the importance of teachers and how they carry the responsibility of educating our future generation.
The Annual Sports Day was held at Islamabad Sports Complex. All students participated in various races such as flat race, pole race and javelin throw as the spectators cheered them on. They demonstrated their athletic as well as kinaesthetic abilities by performing aerobics on various songs. Besides the physical activity, sporting competitions help students in developing social skills and good sportsmanship.
Food is Fun!!

Themed ‘Food from Four Provinces’, the Food Festival was a joint event of F11 and Rawalpindi campuses. Students, teachers and staff of both the campuses got together to offer and enjoy a vast variety of cuisines, board games, lucky draws, nail art, photo booths and henna corners. A sunny winter weekend along with scrumptious food and lively music provided the right ambiance for a fun filled fiesta. One of the highlights was the karaoke booth.
Pakistan’s Birthday

The academic year 2017-18 started with the celebration of 70 years of independence of Pakistan. The patriotism and love for the country was palpable in the morning assembly where students expressed their patriotism by singing songs, quoting the founding leaders, narrating the story of independence and listing vital information and accomplishments of the country and its people. The entire faculty and school administration dressed traditionally to reflect unity for their country.
On 23rd November 2017, the Chinese Cultural Centre celebrated the ‘Chinese Art Festival’ as part of the Pak-China Cultural Exchange Program. Students who attended the session by Mr. Zhu Yong, renowned for traditional Chinese art form of ink-wash painting, were introduced to the centuries old techniques from his region. Students discovered how to capture the spirit of a subject with contemporary brush techniques. A greater emphasis was placed on brush control and composition of the ink painting.
Brainwave

The love for food was celebrated by organising a ‘Food Festival’. Not only was there mouthwatering street food, there were lots of games and everyone danced to the carnival music.

Cave paintings

F11 campus has stepped up to international sports competitions. Naveed Ahmed Khattak and Usman Ahmed Khattak flew to the United Kingdom for the Under 16 Cricket Tournament whereas Muhammad Arshmaan Shahid travelled to Brazil for the Mini Futsal World Cup 2017. Arshmaan was the ‘striker’ and his team bagged third position!

Buzzing Numbers

Students were tested on their analytical skills, logical arguments and numeracy skills in an elaborately organised event called Matheletics. Four rounds were held: the screening round was held in their respective classes and three buzzer rounds were held in front of live audience. Three qualifying teams from each class competed against each other for the final prize.
OUR YEAR
Sliding my way to a better future!

They took all my honey!

RAWRRR!

Nature never goes out of style!

Duhh!! It’s fake.
Balancing Act!

Hippity Hop!

Buzzing Mathematicians!

I look so cool!
Floral creativity has no bounds!

Brainiacs at work

Be anything but predictable!

The language of art!
this is my favourite, you should buy it!!

umm am I the only one in this race
Another year of triumphs for Froebel’s has come to an end- a year constituted of academic milestones that were not only reached but surpassed. I am fortunate enough to serve Froebel’s Wah campus as a Headmistress for two years. It seems like only yesterday when I joined the Froebel’s family. The positive attitude shown by the parents and faculty and their never ending support has made my journey smooth. Every passing day I find myself in a new world of learning.

Year 2017-18 has been a vibrant year full of productive events and not just academic but extracurricular accomplishments as well. Here we believe in the wholesome upbringing of students to mould them into not only the best of society but the best of themselves. This year, Red Ribbon Week was celebrated under the banner of ‘Say No to Drugs’. Later an international art competition was held under the same banner in which two of our students bagged first position and a special award for creativity. This year’s Dramatic Arts brought something meaningful and special to the audiences where students performed love for parents, environmental pollution, bullying and some impressive dance performances.

We try to inspire, encourage and sometimes even challenge our students to become active thinkers. As we believe in engagement and inclusion so we also involve and engage our students in order to open up their minds and use their intellect in the right direction.

I proudly present the chief achievements of our students throughout the year in this yearbook and look forward to an equally, if not better, year ahead.

EVENTS
Recycling Saves the Day!

To make children aware of the recycling process, an exciting activity from IPC theme ‘Brainwave’ was conducted by Preparatory in which they used different recycling materials to make tree trunks, grass and clouds. This activity made the students more conscious about waste and saving the environment.

Owls!!Hoot!!Woot!!

A colourful fabric collage was created using a variety of textured fabrics by Preparatory as an IPC activity from the theme ‘Brainwave’. The activity was planned to enhance children sensory skills in which they used their sense of touch to feel the difference between the fabrics.
Cut, Paste and Off to School!

Creative school bags were made by Playgroup students under the theme ‘This is me’. Children recycled their old school bags by using cuttings of pockets, straps and clips and pasted them to make new ones.
Weather Wonders

Kindergartners had a great start to the theme ‘Weather Wonders’ as an Entry Point. A fairy created weather variations with her magic for the children to guess. This magical morning was most enjoyed as students shared their favourite weathers and not surprisingly the splish splash of rainy weather was most popular.

Say Cheese, Please!

As an Entry Point of the theme ‘Say Cheese’, Preparatory class set up a ramp. Children walked the ramp in vibrant colourful costumes, smiling and posing for the cameras.
Bugs Can’t Escape Our Little Biologists!

Playgroup went on a nature walk as a part of their IEYC unit ‘Brilliant Bug Ball’. The little biologists inspected tiny bugs with magnifying glasses and gently placed their findings in jars. This activity promoted love and appreciation for the natural world to let free as the tiny bugs were later released.
Little Detectives Look for Dinosaurs!

Kindergartners became detectives for the day as a part of their entry point. They followed clues to search for the giant animals which roamed the Earth many moons ago. The role play boosted their ability to work in teams, follow a sequence of events as well as alertness.
Dressed up and reading about super heroes, the kindergartners took on the roles with enthusiasm. They showed off their super cool costumes, explored different superhero logos and talked about their special powers while portraying their chosen character. They knew their characters so well that they were truly brought to life through them.
Playgroup set up a toy shop as a part of their IEYC theme where they acted as shopkeepers and customers, using costume money to buy and sell toys. The students enjoyed imitating real life scenarios and some were seen bargaining, mimicking their significant others.
Preparatory students kicked off their new theme ‘What’s it made of’ with a great start. As an Entry Point, children made 3D models using variety of materials such as wood, plastic and grass. They learnt about different materials and their age.
Cave Paintings, Scavengers and Settlers!

As an entry point of the new theme ‘Scavengers and Settlers’, students of Year 2 depicted the lives of the scavengers by making temporary shelters out in the playground. They searched for the natural resources and gathered them to make their own shelters in two groups.
Year 3 celebrated ‘Saving the World Day’. They made colourful posters to create responsiveness about the significance of rainforests in the world. They examined soil samples collected from multiple locations. Later they compared the samples to find similarities and differences in them.
As beginning of a new theme ‘Bright Sparks!’ Year 2 came in coloured clothes and enjoyed the variety of lighting around the classroom. The classroom was decorated with a range of coloured flash lights, bulbs, LED lights and spot lights. Children observed the lighting effects and shared their views on electricity.
Rescue Mission!

Students of Year 4 as a part of their IPC theme carried out a rescue mission for the trapped scientists of Antarctica. They started off after packing up the necessary luggage for their journey. Keeping in view the hazards, they were fully equipped for any unexpected situation. They experienced snow blizzards, wildlife threats and extreme weather conditions. Later, they evaluated their mission and suggested changes in the rescue plan.
Students of Year 4 shared the joy of eating healthy with their school fellows and parents at the ‘Food Festival’ which was the Exit Point of their theme ‘Bake It’. The festival was organised at the school and healthy and scrumptious meals with refreshing beverages were served. Children of Year 4 entertained the audience with live music during the event. They tried their luck with the golden lucky tickets as well. Many attended the festival and enjoyed the ambiance along with delicious food which boosted the moral and confidence of the young cooks.
Full Power!

Students of Year 5 presented their static electricity experiments on the exit point of IPC theme ‘Full Power’. They learnt about electricity, its applications and dangers. At the end of the theme they read, researched, wrote, illustrated and presented their static electricity experiments.
Students of Year 3 participated in this IPC theme enthusiastically using their aesthetic sense while decorating their headdresses as Egyptian Pharaohs. They thoroughly enjoyed tomb painting. Later all students’ work was displayed during their Exit Point, where students brought the Egyptian pharaohs to life. The exciting Exit Point was followed by a feast fit for kings, or rather the young pharaohs!
The Art of Practicing Generosity

Year 2 acted on the subject charity which they learnt about under their Islamiyat topic ‘Generosity’. They brought their old toys, garments, blankets, bangles, books and money openheartedly. After collecting and organising it in packages they handed it over to the custodial staff in school.
Experimenting with Solutes

Students of Year 4 conducted a fair test by using different solutes. They used their prior knowledge and research material to test their hypothesis to derive a conclusion.
ARTISTIC HIGH!

Wah campus participated in the 2nd International Art /Poster /Drawing Championship 2017 on the theme of ‘Say No to Drugs’ – organized by Global Forum for Teacher’s Educators in collaboration with Foundation for Drug Free World USA.

Mustafa Majid of Year 4 grabbed first position, whereas Siraj Ali of Year 7 got a special award for his outstanding creativity.
Little Picassos at Work!

‘Picasso Day’ was celebrated by selecting pieces of art from Picasso’s work and given to the children to replicate by using various mediums and techniques. Art activities boost students’ ability to apply creativity and their individual flavour.
The commemoration of Eid Milad-Un-Nabi was held for which special attires were adorned and beautiful Naats recited. Students shared with their peers anecdotes from the last Messenger’s life which taught valuable lessons to all.
Wah campus hosted its 6th Annual Sports Day on November 30, 2017. Students came marching in the ground in their colorful outfits and took the oath. A beautiful aerobics display was presented by students of Early Years. They also exhibited great confidence in different races including aeroplane race, sack race, spoon race and hurdle race. Synchronised demonstrations of karate and gymnastics by Primary and Lower Secondary students were the highlight of this event. Such sporting events encourage an environment of sportsmanship and teamwork.
Lights, Action and Laughter!

The jewel in the crown of all events was the Dramatic Arts Day. Mesmerising performances on ethics, saving the environment and fairytales were well attended and appreciated by the parents. The stand up comedians brought a smile to everybody’s face and a chuckle in the hearts with their witty jokes towards the end of the event.
Down the memory lane
Abra Kadabra! Fill it up with chocolates!

Get Awayyy!!

Four heads are better than one!
SHHHH... I am hiding from the teacher

Sunshine makes me more artistic!
My Choco Beard!
boy on right: They make us carry bags on Sports Day too!
girl in the middle: But I’m a princess, I don’t look for frogs!
The challenge of today’s child is to comprehend the ‘original’ language at the same time understanding the ‘cell phone’ language. He/She has to process within microseconds what to fit where. Amazingly, they do it flawlessly. The child of today is bombarded with information from different electronic gadgets in his reach. These have increased the ability to analyse, assess and decipher.

We as educators not only have to be proactive to meet these, but at the same time we need to challenge the sharp-minded folks. This year we have been more determined and geared up to meet this demand. The classrooms have been modified to a place where students mastered content while synthesising, evaluating and creating information from a wide variety of subjects.

As you glimpse through the yearbook, you will see the various methodologies of learning that our teachers designed and applied to tune into the learning styles of the 21st century learners.

We would also like to thank all parents for their constant support and suggestions that open the gateway for improvement every year.

Hope you enjoy and have a great time while turning pages that show memories created at our school this year.

Ms. Aisha Wasim
Stories from Long Ago

“Children’s children are a crown to the aged, and parents are the pride of their children.” -Proverb

Students of Early Years took part in various exciting activities to show gratitude towards their grandparents. They enjoyed listening to the fun childhood stories of their grandparents and also participated in some activities with them.
A BALANCING ACT!

Students of Early Years celebrated ‘Bicycle Day’ by riding their mini-bikes all over school. This event is a big party which encourages team play, teaches balance and sharpens their motor skills. After exhausting themselves, students enjoyed sharing their lunch with friends.
Effective phonics instruction is important in Early Years to recognise sounds in words and to spell them correctly. Therefore it is essential for teachers and parents to have equal knowledge of this skill. With this vision, parents of Early Years’ students underwent first phase of Phonics Training Programme conducted by Ms. Aiza Omer, Ms. Maham Javed and Ms. Shabnum. Parents found the training very informative and appreciated the activity.
Have you ever wondered what it would be like to be a superhero? Kindergarten students celebrated costume day in which they were dressed up as their favourite superhero. They made heroes on popsicle sticks and played skits in which they rescued victims.
The teddy bear is one of the most popular toy for children. Playgroup students brought their lovable stuffed animal to celebrate ‘Teddy Bear Day’. They shared their picnic baskets with each other whilst narrating stories of their cuddle buddies.
Instilling Altruism at an early age!

It is very helpful for children to learn about the community helpers. Knowing who these are and what they do helps them feel less frightened in the event of an emergency. By making police cars, walky talky and a first aid box, through crafts, Kindergarteners learnt about their usage.
As a part of IEYC Theme ‘Weather Wonders,’ Kindergartners built their literacy and science skills as they engaged in a study on weather. They learnt about the different colours of rainbow and how it is formed. Later they made colourful rainbows, decorated them and hung them in their classrooms. Students also got acquainted with snowy weather and created it in their classrooms with snow spray.
Children must understand materials and objects around them. For that students of Preparatory as part of their IPC theme were left free to use any material and express in art form. They made diverse designs by using various natural materials such as stones, leaves and soil.
A field trip to Taxila Museum was planned for Primary Years’ students. It was a hands-on experience for children to explore the rich Buddhist relics and statues. Students appreciated the master craftsmanship of Gandhara Art and various inventions under one roof.
Debates and speeches are platforms where students participate and analyse global issues such as social, ethics, law, politics, science and technology. This plays a vital role in building critical thinking; therefore, speech and debate competitions are arranged every quarter to teach students oratory and the ability to stand up and speak in front of an audience.
Fun with Numbers — Really!

Mathletics is a web based multi-purpose learning programme that empowers students to apply mental Math in daily operations rather relying on calculating devices. Soan Campus hosted its first Mathletics on 26th September, 2017 where a series of quizzes were designed for young Froebelians to enhance their ability to solve sums mentally using logic. Students absolutely enjoyed this programme at school and won number of individual and group rounds with outstanding results. They also learnt how confidence is the only factor to cope with anxiety especially when you are time bound to answer. This sharpened their mental skills.
School morning assemblies are the integral part of curricular and co-curricular activities. They develop school spirit, feeling of affiliation and unity among the students. They also provide an excellent platform to enhance students’ abilities, skills and talent. Here are highlights from some of the assemblies:

- A special morning assembly conducted by Urdu teacher Ms. Afshan Naqvi where students of Year 2 performed a tableau on a poem ‘Piyari Appi’. This was to develop interest in students for Urdu as a language and subject.

- ‘World Tourism Day’ was observed to foster awareness of how sustainable tourism can contribute to our country’s development. The assembly presentation highlighted the connection between, nature, culture and the host community.

- It was a special opportunity for Year 2 to commemorate their love and care for animals by highlighting their significance in the world on ‘World Animal Day’.

- ‘World Food Day’ was celebrated with a focus on the importance of curbing food wastage by presenting a role play.
Red Ribbon Week came to an end with marvelous activities, message walls and pledges committed to spreading awareness and learning to say no to unhealthy choices. The aim of observing this week was to educate the students, mobilise the community and encourage participation in activities that promote physical and emotional well-being.
International Peace Day celebrations started with a special prayer in the morning assembly followed by a debate competition. The efforts for peace building by students have recently been acknowledged by United Nations and Soan Campus can be viewed on the UN map. It is an honour to be on the pathway to peace with global fraternity as the aim is to co-create a culture of peace with fervour.
World Space Week 2017 was celebrated at the International Space University where thousands of students from over 100 different schools had participated in 221 different space-themed events and activities.

Heartiest congratulations to space ambassadors Aaliya Ansari for bringing home first prize in ‘Space Story Writing’ competition and Wania Babar Khan in ‘Rabbit Foot Discovering Moon’ competition.
Froebel’s Theatre 2018 brought together many talented students in a nail biting competition of Dramatics. Year 6 and 7 competed against Upper Secondary students and other students from four campuses of Froebel’s and won the Best Play Award for ‘Drop Dead Juliet’. 10 different plays all performed with high quality acting, unbelievable set designs and the most apt costumes.
Iman Zeenat and Muhammad Zuhair Rashid of Year 7 qualified for the Global Round of World Scholars Cup 2018. There were more than 18 schools and 450 students participated in regional round held in Islamabad in February. After conquering intense competition in debates, collaborative writing, MCQs and Scholars’ Bowl (a quiz competition), did these students qualify.
The most eagerly anticipated event of year ‘Dramatic Arts Day’ was held with great fervour. The students enthralled the audience with their confidence and flawless dialogue delivery in both English and Urdu plays based on childhood memories, social media, deforestation, cultural diversity, patriotism and importance of all living beings. Whereas, our youngest performers of Early Years paid a heart touching tribute to their parents, Year 1 and 2 depicted the effects of our emotions and their management. All the components including costumes, musical demonstrations, props, play-scripts, stage appearance and music support were very well executed.
Game Face On!

Sports Day allowed children to exhibit their hidden talent and skills that they learn from physical education in school. Students demonstrated great enthusiasm in a military drill, long jump, sack race, ball throw and obstacle race however aerobics and Taekwondo performance received the most praise by the parents. The turnout of parents was overwhelming and their active participation in games, especially planned for them, made the day even more memorable!
Art Expo is celebrated every year to bring students’ imagination and creativity alive on canvas. Teachers ensured that every student had finished one piece to be part of this vibrant event.
Teachers are role models. They believe in their students and make them able to pursue their dreams. Teachers’ Day is celebrated to acknowledge all the hard work these mentors undertake to brighten the lives of their students. To pay a tribute to the teachers and to build a special bond a friendly student-teacher cricket match was organised. The day began with warm welcomes, appreciation and sportsman spirit. Such events develop confidence and supportive relationship among children.
White Chocolate day was one sweet activity, where students were told that white chocolate is world’s most desirable flavour and was first launched by Nestle in Europe. Students made and devoured yummy cake-pops covered in white chocolate and shared with each other.
Recognition Ceremony

Systems of recognition and rewards help maintain a culture of motivation, unit and satisfaction among students and staff. To keep the energy and momentum alive, an award ceremony was conducted to applaud the achievements of ‘star students’ and ‘smart teachers’. Certificates and badges were given to all winners for the month of January 2018.
‘Independence Day’ was celebrated with patriotic zeal and enthusiasm where a variety of events were organised. Students depicted the struggles of the freedom movement through heart-wrenching speeches and tableaus. Patriotic songs were played and students sang their hearts out. Everyone was dressed in green and white and waved flags to show their immense love and respect for the country. The event ended beautifully with a cake cutting ceremony for our beloved country turning 70!
Some Eid Fun at School!

Eid is a festival that upholds the spirit of brotherhood and love. Children of Early Years celebrated this colourful festival by coming to school in their Eid outfits. The celebration included a dance performance by children and sharing of delicious food.
A LOOK INSIDE
Haha! I know that’s not the correct answer!

Arghh!! I Can’t open it!
Now I can join the RUBBER BAND!
Hey, Look at the camera!
step it up girls

umm you want our noodle soup
Another challenging and exhilarating year has come to an end. These were incredible twelve months we all spent together, made so many memories, that I am sure will leave a positive imprint on our lives.

This year, while keeping focus around imperative dates and deadlines, we attempted to recognise and value even the small milestones achieved each day. With this in mind, we work hard to give individual attention to each student helping them each step of the way and celebrating their achievements which results in development of a stable confident personality. We impart value based education teach them respect others, care for the environment and to be kind to animals.

I am proud of this institution which has brought glory and has stood firm to carry forward its mission of spreading knowledge to many. It is playing a stellar role in giving the nation a crop of brilliant young individuals who have brought laurels home and abroad.

I thank my teachers and staff for creating a positive learning environment and the parents for supporting us. Wish you all the best for the coming year!

EVENTS
The key objective of ‘Literacy Week’ is to enable the students to understand on how knowledge from the books can serve as a source of increasing creativity, vocabulary and imagination. Students brought their favourite books to school and shared the parts they liked the most and why, wrote poems and made customised book titles.
The beautiful and spectacular play ‘Smiley Shark’ by Playgroups awed the audience. Following the theme under the sea, Kindergarteners gave an enchanting musical performance on ‘Barry the Fish’. Preparatory gave a Broadway under the sea performance on ‘The Little Mermaid’.
BATTLE OF THE MINDS!

The World Scholar’s Cup was one of the most challenging and unique event. Nine students from Civil Lines took part in it. It helped students in increasing their knowledge and widened their social horizon as they got to meet and interact with students from different schools. All the participants qualified for the Global Round!
As anticipated, the athletic prowess of our students made this year’s Sports Day a roaring success. All our little champions proved their mettle as they excelled in various interesting races. The exuberant aerobics display had the campus ground resonating with cheers for the tinytots!
With a prime objective to educate, field trips enable our students to put classroom concepts into real-life perspective. Early Years’ students visited the ‘Bird Eye View Park’ where they enjoyed watching a wide variety of birds and learnt about their habitats. Teachers and students alike enjoyed the trip and gained knowledge about the bird world.
The love for food was celebrated by organising a ‘Food Festival’. Not only was there mouthwatering street food but also there were lots of games and everyone danced to the carnival music.
Primary Years and Lower Secondary students participated in various races and aerobic activities at their ‘Annual Sports Day.’ With healthy competition, the environment was full of adrenaline. Taekwondo tricks and PT display by our jubilant students made the event an overall memorable experience for the athletes and spectators alike.
Out in the Field!

This year there was a great deal of learning outdoors. Field trips were arranged so that students could experience their curriculums tangibly.

Students of Year 1 and 2 visited the National Museum, Islamabad and F9 Park. Learning about the country's history and looking at artifacts, their minds were filled with questions. The visit was followed by being outdoors at the park where running in some fresh air was surely more fun to them. It is always fascinating to know where one is from and about the past civilisations. Some of these questions of students from Year 3 and 4 were answered when they visited the historical Taxila Museum. They saw all the relics and explored remains of ancient civilisations.

Some physical exertion is good to endure, as sound bodies lead to sound minds. Year 5, 6 and 7 oiled their knees and fueled up on some water to go on a hiking adventure to Margalla Hills. They explored nature along their way and enjoyed the fresh morning air. Though exhausting, but the hike was a thrilling experience for students and teachers alike.
The stimulating and exciting ‘Math Challenge’ was one mind boggling event with Year 7 students excelling in each round. Mujtaba Asim needs a special mention since he was amongst the top scorers!
Act, Sing, Dance!

This year, for the first time our students took part in a hallmark event of Froebel’s Rawalpindi; Froebel’s Theatre. Besides getting exposure to a healthy competition, students were given a platform to express their acting skills – and my, they really awed the audience with their expressions and strong dialogue delivery.

Abdul Hadi from Year 6 was honoured with the Best Actor Award. Impressive!
MAKE EACH DAY YOUR MASTERPIECE!

There is an artist within everyone of us! To encourage and let this hidden talent emerge, an ‘Art Expo’ was arranged. To the delight of all teachers and parents, some real Picassos were discovered through this activity.
MEMORIES DELIVERED

Gun...Nope
Glue Gun!
‘Forgive me for cutting you up!’
FROM THE HEADMISTRESS’S DESK

“There are no secrets to success. It is the result of preparation, hard work and learning from failure.”
- Collin Powell

Faisalabad Campus is known for its tremendous spirit, inculcated by our dedicated staff and faculty. Year 2017-18 has been a terrific year of achievements and accolades.

The Froebel’s community provides multiple grounds which foster an inclusive dynamic learning environment for each child, ensuring that no child is left behind.

As you flip over the pages of this yearbook you will be impressed to see that our students continued to excel in a number of interschool events, community service programmes and athletic events where teachers and parents pulled together to make it an overall success.

Being the captain of the ship, I believe that excellence can only be guaranteed with an uninterrupted supply of appreciation and support.

I would like to thank my team, my support staff and not to forget the parents, as your cooperation had such an impact that is evident from the success of our students. Teachers and parents collaborated on many events and made this year an overall success.

I look forward to a series of great years ahead with even higher vim and vigour. Till then, happy reading!

Ms Zainab Zahra
EVENTS
The Brilliant Bug Ball!

Children of Playgroup went out on a nature walk as it was a part of their IEYC unit 'The brilliant bug ball'. There they sorted out the bugs and talked about them.
Children dressed as super heroes confidently introduced themselves and their super powers in a presentation as a part of their IEYC theme ‘To the Rescue.’ They informed them how they could use these commands to change the world and informed that anyone who helped someone in trouble could be a super hero!
Big bad wolf!

Students of Preparatory presented a magnificent performance on their favourite story—‘Little Red Riding Hood’. The audience was captivated by the confident dialogue delivery, expressions and the overall production.
INSTILLING PHILANTHROPY!

Students from Playgroup to Year 3 visited SOS Village and shared gifts with children there. This visit aimed to create compassion and value all that one is blessed with. A special thanks to the parents for their generous contribution for the children of SOS village..
Yummy Homemade Goods

Year 3 and 4 had a successful bake sale for charity. Students were encouraged to bring homemade items for sale and set up attractive stalls at their school. This activity inculcated a civic sense amongst students.
Temples Tombs and Treasures!

The students of Year 3 experienced smells, sounds and relics that they would have in ancient Egyptian times as a part of their IPC theme ‘Temples, Tombs and Treasure.’ Students learnt about the culture, daily life and common beliefs of ancient Egyptians.
Nature lovers of Year 2 did some organic farming as a part of their IPC theme as they planted trees in their school garden. They took great care of the tiny plants and much to their delight the plants are growing faster day by day.
RJS FOR THE DAY!

Froebel’s aims to acquaint students with innovative learning methods, which increase productivity and morale of its student. Students of Year 5 hosted a radio show on their ongoing IPC theme ‘Drugs Awareness’. Listeners gave an excellent response and appreciated the confidence and optimism of the children.
Winning all around at G.Lit.S Gala!

What else could be better than the children competing with over 10 schools and bringing 12 shields and a trophy home! Students of Year 1 to 5 participated in an inter-school competition where they competed in an array of events. Meerab and Usman of Year 5, Eman and Ayaan of Year 4 as a group came first in writing rockets. For Urdu declamation, Zain (Year 3) and for English declamation, Manaal (Year 4) stood first. Moreover, Arham, Ayema, Manaal and Ahmed all of Year 4 altogether came in second in Thematic Art. In Urdu poetry recitation, Adam (Year 1) performed exceptionally well and secured first position, whereas Hadi (Year 1) came second in English poetry recitation. Musfirah of Year showed her culinary skills in salad making and came first.
Inclusive living!

In order to inculcate in students the great moral values of compassion and respect for all, a ‘Dignity Dessert’ was arranged by Year 7 for custodial staff. This gesture brought smiles all around!
An informative and educational field trip to Lahore for Year 4-7 was arranged. Students were given a detailed guided tour. They learnt about the historical places of Pakistan including Badshahi Mosque, Lahore Fort, Minar-e-Pakistan, Lahore Museum and more. Students enjoyed their educational tour about Pakistan’s history.
To celebrate ‘Children’s Day’, students came dressed up in their favourite clothes. Each class had a party arranged for the students where games were played and food enjoyed. Students were surprised to receive letters from their parents appreciating them.
Defence Day!

Tribute was paid to all ghazis and martyrs of 1965 war on Pakistan ‘Defence Day’. Students appreciated the sacrifices of all armed services forces.
I Know My Spellings!

Students participated in ‘Dawn Spelling Bee Contest’ held in University of Agriculture Faisalabad. Students were enthusiastic and confident as they conquered some very tough words. The contest helped immensely in enriching the vocabulary bank of the students.
Exposure to Some Inspiring Poetry!

Students celebrated ‘Iqbal Day’ by recalling Iqbal’s services towards our homeland by performing on his poems. A speech competition related to Iqbal’s life was also held which was quite informative.
Do you give as much importance to your feet as any other body part? Students from Kindergarten to Year 5 celebrated ‘Measuring Your Feet Day’ with great excitement. Children washed and measured their feet along with the pledge to keep them clean, nails trimmed weekly and overall give their feet as much importance as any other part of body.
Students brought plants and told their mates about the importance of plants and various functions of them. This was followed by a tree plantation drive. All the students were very enthusiastic and thoroughly enjoyed the planting process. Planting event connected the students to the benefits of trees and fostered environmental sensitivity in them. It also brought them closer to the environment.
“Gold medals are not made of gold they are made of sweat, determination and a hard to find alloy called guts.” - Anonymous

8th December, 2017 was the day Frobelians rocked Alfateh Sports Complex with their superb performances, cooperation, coordination and good sportsmanship. Frog race, hurdle race, skating, aerobics, cycling and many more games kept the audiences involved especially the ones with a photo finish.
Scribbling!

Scribbles may look like a lot of lines, loops, and squiggles. But these marks are very important to a young child. They are a child’s way of writing his/her thoughts. Keeping this in mind piles of papers, pencil colors, crayons, paints, marker colors and lots of stationery were set out for playgroup students so they could draw or scribble whatever they wanted.

Miniature Garden!

Students of Preparatory made miniature garden as a part of their IPC theme ‘Our World’. They chose a theme for their mini masterpiece and then shopped around to find accessories and accents because the activity taught them how to respect the Earth, love for nature, got them to explore outdoors and be active, and gave them a glimpse of how everything works together in the ecosystem.
As they say ‘nothing says home like the smell of baking’ and students of Year 4 filled the school with the aroma of baking. They baked bread in their technology task of the unit ‘Bake It’ and loved sharing it with everyone in school.
Future Meteorologists!

Weather and Climate play important roles in our natural environment. Predicting weather is not easy but our young meteorologists of Year 4 made high-tech weather instruments and presented them to the whole school. Everyone was welcomed to have a look and could give a try using the instruments themselves.
Children of Year 5 ended one of their most interesting themes with an ‘Old time Braai, new time barbecue’ activity. They were dressed up as people from the past and presented a role play leading to a properly set up barbecue stall where they made children sit on stones and leaves to enjoy the barbecue party.
Are vegetables healthy and yummy to eat? Just a minority from the whole school was in favour of it but students of Year 1 presented their views about vegetables in such a befitting way that the same minority became majority. They explained unlimited benefits of vegetable and brought them to life through role play to convince others which definitely was a success.
Scholars have long recognised the significance of performing arts in school goers. A talk show was hosted by Year 7 on their course novel ‘A journey to the centre of the Earth’ which provided them a platform to showcase their skills in terms of actions, to be able to respond accurately to host’s queries and facing critical situations presently.
Pakistan Day was celebrated in high spirits where students were informed about the importance of Pakistan Resolution and its association with Minar-e-Pakistan, Lahore. The day was celebrated with various activities such as dressing up in green and white traditional outfits, singing national songs, a special morning presentation by junior students and paying tribute to the national heroes.
The much-awaited Food Festival was held in March. Students visited the festival with their families as it was open to all. Mouth-watering cuisines, games, and exciting prizes made the day truly unforgettable!
‘I have no country to fight for; my country is the Earth and I am a citizen of the world’ - Eugene V. Debs

Students of Year 4 to 7 set up a mesmerising event where they put up stalls representing culture, language, cuisines and traditional clothes of different countries including Turkey, Spain, South Korea and Pakistan. The presentation of each group was very informative and all presenters were well-versed with the country they were presenting. The captivating evening ended with the distribution of shields and certificates among the winners and all participants.
